BEETLE POS family
BEETLE /iPOS Advanced

Professional – scalable – future-oriented

The retail and hospitality sectors are increasingly using compact systems that have an intuitive user interface and are more efficient.

The BEETLE /iPOS Advanced is a POS terminal that offers everything these sectors wish for with its all-in-one design and graphical user interface.

The system dovetails seamlessly into the open standards-based BEETLE POS family. It impresses with a highly attractive design, robust black chassis and a large choice of standard and retail-specific interfaces.

Users can tailor the system to their needs thanks to a wide range of options.

These include:

- 12.1″ or 15″ TFT display

- Capacitive, resistive or infrared touch surface

- Magnetic card reader

- Waiter lock

- Powered USB-Hub

- Integrated scanner

- CD/DVD drive

- Multimedia card reader

- Second TFT display

As a result, the BEETLE /iPOS Advanced can be configured flexibly to meet the specific requirements demanded by retailing and hospitality. Its flexibility also means that the BEETLE /iPOS Advanced can be used as a touch-oriented information terminal.

The BEETLE /iPOS Advanced impresses with the intelligent arrangement of its components, which not only makes a major contribution to the attractive and innovative design, but also offers extremely simple maintenance, unprecedented robustness and flexible expandability. It thus optimizes total cost of ownership.

Power-saving Intel processor technology and peripherals powered from the system reduce electricity costs.

Like all BEETLE POS systems, the BEETLE /iPOS Advanced has integrated remote management functions and has been specially developed with an eye to efficient serviceability. These product features increase system availability, simplify administration and reduce the total cost of ownership (TCO).

TECHNICAL DATA

System management
With over 35 years of experience in the business, we know our customers' requirements for high availability, stability and continuity of systems, as well as for low total cost of ownership (TCO), i.e. all costs incurred during a product's lifecycle. The systems are "management ready" and support software distribution, inventory management or remote administration of current IT management solutions.

Peripherals
All the BEETLE models are open system platforms for modern, best-of-breed POS solutions and meet users' requirements for maximum modularity. To this end, we have an extensive range of retail peripherals, such as POS printers, barcode scanners, line displays, cash drawers, POS keyboards, flat panel displays, etc. Our product portfolio consists of self-developed and OEM products, covering everything that is needed for professional, freely configurable POS solutions.

Communication
BEETLE POS systems can communicate over all standard networks. Users decide what they require – LAN or WAN, cabled or wireless, TCP/IP, IPX/SPX or Netbios.

PROCESSOR
- Intel Celeron M 1.5 GHz

MAIN MEMORY
- 256 MB – 2 GB

SYSTEM INTERFACES
- RS232 (standard/powered): 1 - 2 / 1 - 3
- USB (standard/powered): 2 - 4 / 0 - 6
- Cash drawer: Yes
- Keyboard/mouse: Yes
- Audio: Yes
- LAN onboard: Yes

DRIVES
- 2.5" HDD
- DVD (Option)

DISPLAY
- Onboard graphics controller
- Onboard dual-display controller (optional)
- 12.1" TFT display 800 x 600
- 15" TFT display 1024 x 768

OPERATING SYSTEMS
- Windows Embedded for Piont of Service (WEPOS)
- Windows XP Professional
- WNLPOS(Linux)

INTEGRATED OPTIONS
- Customer display
- Loudspeakers
- Scanner, waiter lock, magnetic card reader, multimedia card reader
- PoweredUSB hub (5 x 12V, 1 x 24V)
- Adaptable second TFT display
- Front USB

DIMENSIONS
(W x D x H in mm)
- 12.1" model: max. 318 x 345 x 379
- 15" model: max. 390 x 345 x 438

WEIGHT
- 12.1" model: ca. 12 kg
- 15" model: ca. 14 kg

Integrated customer display

Integrated waiter lock

Dual display

PoweredUSB

Integrated scanner
